Crown Point Grand Opening and Mother's Day Car For A Cause Was Great!

In February, C.D.E. Collision Damage Experts reached out to St. Jude House, a domestic violence prevention center and shelter in Crown Point, IN to find a candidate who was in need of reliable transportation. Candidates filled out an application and wrote a one page narrative explaining how having a vehicle could change their life. After reading a number of applications, one woman was chosen. At our Grand Opening Celebration, a single mother who has overcome a number of tribulations in her life, drove away from the event in her new car! Denise Wallace of Indiana was completely surprised when her name was called at the event on Thursday, May 10th.

With the help of eighteen local sponsors and vendors, we were also able to provide Denise and her 8mth old daughter with a year's supply of tire rotations, oil changes, and gasoline (\$25/week). The gift also included covering the cost for having full auto coverage of her choice and \$250 in gift certificates for general maintenance. The car also has brand new tires and brakes. For her 8 month old daughter, C.D.E. included some every day necessities and a \$150 gift card to Target.

Denise was completely surprised to find out she was the recipient of the vehicle. Her family and friends have supported Denise in her journey to success. They provide her with motivation and help babysit her daughter. They gave her with rides to work, church, and St. Jude House Meetings. Denise's family and friends were excited to be part of her special night. Over 130 people came to our Grand Opening! Thank you everyone for your support!
